SYSTEMS

Open Plan, Open Minds.

7 Business Day Program

Our Story

Based in Richmond, Virginia, Open plan Systems traditionally has been known for remanufacturing Herman Miller AO2 systems furniture to provide a high-quality, low-cost, and environmentally-friendly source for modular furniture. In addition to our sustainable solutions, our new OPS2 line of office furniture is made to major manufacturer standards with the added benefits of flexibility and selection, all at a significant cost-savings.

With more than 30 years of office furniture industry experience, Open Plan Systems has developed into the largest remanufacturer of Herman Miller AO2 with dealers carrying our product lines throughout the country. Open Plan Systems is a leading distributor of seating, case goods, and filling systems, and has developed the innovative tile system and modular walls.

Our products are built to stand the test of time. All of our new and remanufactured products are compatible with the original AO2 product.

Our Facility

Our 10-acre complex includes 135,000 square feet of manufacturing, shipping and administration buildings, as well as a 125,000 square foot receiving and production prep facility. We have invested more than \$4 million in our state-of-the-art manufacturing facility and \$5 million in inventory, allowing us to offer consistent and efficient turnaround times, some as short as 7 days from receipt of order.

Sustainability is the core of the remanufacturing process. Sustainable practices, including recycling, add even more value to our product lines, and reduce our impact on the environment.

UL-Approved

We take an active interest in the safety of your workplace. Every fabric we use is class A fire rated and our new and remanufactured products are approved by Underwriters Laboratories Incorporated. Many insurance policies have clauses limiting the insurance company's liability in the case of a claim due to the failure of a non-UL-listed device.

Protect your investments by making sure the product you buy is UL, BIFMA and NEC-approved.

Get Furniture... FAST!
