We maintain an inventory of over 60,000 panels in 185,000 square feet of space. Stocking large volumes of product allows us to provide the best solution at the best price.

When a shipment arrives hardware is removed from all panels, shelves, and work surfaces. Each component is carefully inspected and reconditioned as needed.

Metal components are sanded and pre-washed prior to painting. Pieces are painted in our state-of-the-art powder coating line or by electrostatic paint process and heat cured.

Why Buy Remanufactured

Quality

Herman Miller®, the company who invented the open office concept in the 1960's with the Action Office Series, remains the leader today for quality, simplicity, and affordability. Our remanufactured systems look, feel, and function as if they were brand new from Herman Miller®. We rely on industry leaders such as InterfaceFABRIC, Burch Fabrics Group, and Nevamar to supply our fabric and work surface materials. Read about our intensive remanufacturing process below.

Our commitment to the customer is second to none. Each member of our team is dedicated to the company's success and customer satisfaction. Our more than 100 staff are loyal, hard working individuals who take pride in their jobs and the quality of their work. Best of all, every product is backed with our warranty (see right).

Savings

From two stations to two hundred, we provide an alternative to the high cost of new modular office

furniture. As the leading remanufacturer of AO2 workstation systems we are dedicated to providing the most cost effective solution for your office furniture needs. Our customers save as much as half off the cost of new.

Safety

We take an active interest in the safety of your workplace. Every fabric we use is class A fire rated and our remanufactured products are approved by Underwriters Laboratories Incorporated.

Many insurance policies have clauses limiting the insurance company's liability in case of a claim due to the failure of a non-UL-listed device. The NEC (National Electric Code) requires wiring components such as the powered spines found in our cubicle pods to be UL-listed before an inspector approves the building and occupancy permits can be issued. Protect your investments by making sure the product you buy is UL and NEC-approved.

Our Promise

Products are warranted to be free from defects in material and workmanship, regardless of the number of shifts during which the products are used, for the warranty periods specified. Any defected item or items will be repaired or replaced at our cost, including transportation to the original ship to location.

New & Remanufactured

New and remanufactured products are backed by a 5 year warranty that extends only to the original purchasers. New seating product warranty includes 5 years on parts and 2 years on fabric.

Refurbished

Products that are cleaned and resold are covered by a 30 day warranty.

Qualifications

Any product, part, or component must be installed and maintained according to guidelines published by Herman Miller® in order to be eligible for coverage under this warranty. Warranty does not cover items subjected to misuse or abuse. Any modification to the original product voids the warranty. Items must be used in combination with original Herman Miller® or Herman Miller® Remanufactured products. Cost of labor to replace the defective item or items is the responsibility of the distributing dealer. The warranty period starts from the date of purchase.

Our panel department covers over 350 panels daily. Fabric is applied and newly sanded and painted shells are installed along with a reused hanger rail and a new top cap.

Work surfaces are meticulously crafted to your specifications using our highly accurate computerized equipment. A 3mm edge banding is applied all the way around the surface.

Every order is cross-checked for accuracy and recorded on video. Our custom packaging solutions ensure that your product arrives free of damage.

Sustainability: Everyone Wins

Many business owners would like to be more conscientious but find the high costs of ecologically beneficial goods prohibitive. By purchasing remanufactured, enterprises can afford to invest in environment-friendly products while improving their bottom line. Our remanufactured Herman Miller® costs less than half the price of new.

Panels

Every year \$1.5 billion in new Herman Miller® product is sold. Usually, the old furniture is sent to a landfill or storage and never made useful again. More energy is used, harmful emissions and waste created, and virgin materials consumed to produce new furniture. We remanufacture first life products and re-engineer them to look, feel, and function like new while using a small fraction of the energy and raw materials. Remanufactured workstations contribute to points in the U.S. Green Building Council's LEED™ Certification program.

Fabric

More than 100 of our standard fabrics are Terratex® - beautifully made of 100% recycled materials and manufactured using increasingly sustainable processes. Technically superior, visually appealing, and competitively priced. All Terratex® fabrics meet or exceed industry standards for quality and performance and are completely recyclable. The use of Terratex® fabrics contributes to LEED™ points and fabrics certified through the Green-e program may earn additional points.

Paint

Our commitment to the environment extends beyond our product and into our philosophy. That is one of the reasons we use powder coat paint. Not only is powder coat paint free of harmful solvents and VOC's, but 100% of leftover paint is reclaimed.

Quick Facts

A 230,000 car train 1,670 miles long would be needed to carry the amount of raw material equivalent to the 14 million tons a year saved worldwide by remanufacturing.

More than 98% of each panel is reused.

10 U.S. households could be powered for an entire day by the energy saved by remanufacturing just 1 workstation.

In just 5 years of use, the 50 million pounds of recycled materials used in Terratex® fabrics saves an amount of energy equivalent to 484,150 barrels of oil, or the amount of oil that would be needed to heat 22,382 U.S. homes for 1 year.

Remanufacturing conserves more raw materials and energy than any other form of recycling.

New/Remanufactured

Offering our greatest selection, Remanufactured stations receive new fabric, top caps, and plastic base on panels. Connectors and components are sanded, pre-washed, painted, and cured. Work surfaces and pedestals are new. Flipper doors are covered with new fabric and come with 1 key. Choose from 5 standard paint finishes, 2 base colors, 185 fabrics, and 7 work surface finishes at standard pricing. Expand your selection with fabric and finish options available at an up-charge. 3 week lead time, 4 weeks for custom orders.

Quick Ship

Perfect for those under time constraints. Quick Ship is similar to our Remanufactured products but with a short 2 week lead time. Available in heights of 39", 47", and 67" and widths of 24", 30", 36", and 48". Work surfaces are offered in all sizes in Folkstone Grey or Wild Oats Matrix. Fabrics are from InterfaceFABRIC's Broadcast line - choose either Shade with MT trim or Seregeti with DT trim. Orders limited to \$150,000 List price or less.

Promotional

Savings and selection. Choose from three fabrics and trims. Available in heights of 39", 47", 53", and 67" and widths of 24", 30", and 48". Select Blue Smooth, Gray Blue, or Sandy Pebble fabric from Interface-FABRIC's Framework line. Work surfaces are offered in all sizes with the Folkstone Grey finish. Trim is available in MT or DT. 3 weeks lead time.

Basic

Deeply discounted pricing offers budget-conscious buyers the quality and expandability of Remanufactured A02 at pricing comparable to as-is. Available in heights of 39", 47", 53", and 67" and widths of 24", 30", 36", and 48". Fabric is Taupe from Burch's Foundation line and work surfaces are Folkstone Grey. Choose either MT or DT base with HF trim. 2 week standard lead time. Orders limited to \$150,000 List price or less.

Rental programs available, starting at just 3 months. Select MT or DT inventories from our Basic line.

* Additional fabrics available at an up-charge. ** Standard lead times may vary. † Average savings depending on the size of the project.

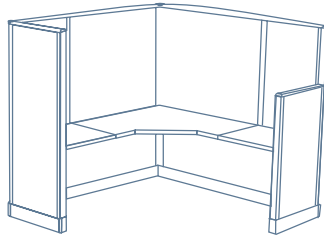

Build your dream workstation and still save money with Herman Miller® remanufactured products.

Select a station configuration, then choose which storage and accessory options you prefer.

Finalize your space with color choices for your work surface, fabric, and paint.

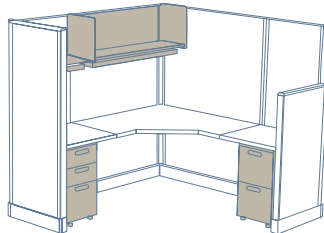

1

Choose a Typical

Choose from our 5 most popular workstation sizes: 2' x 4' , 6' x 6' , 6' x 8' , 8' x 8' , or 8' x 10' . See pages 7-11.

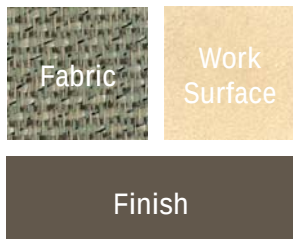

2

Add Storage & Accessories

Make organization easy. With more than a dozen storage and accessory options available you are sure to find the perfect solution. See pages 12-13.

3

Customize Finishes

We offer 5 paint finishes, 2 base colors, 185 fabrics, and 7 work surface finishes at standard pricing. See pages 14-17.

2 x 4 Workstation

Customer Service stations can vary from 36" wide and 39" high to 60" wide and 67" high depending on the user's needs. Stations that have computer equipment would benefit from 30" deep work surfaces and keyboard trays.

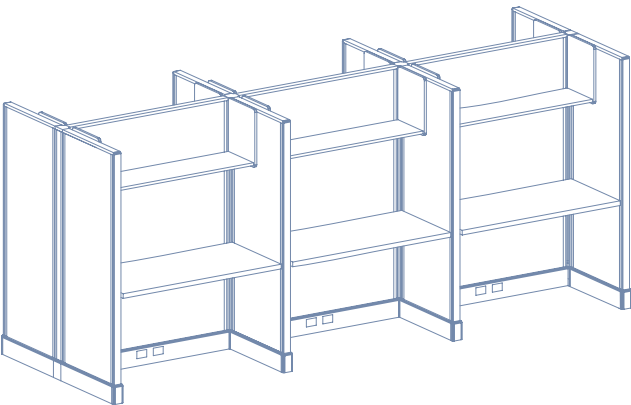

Single station pricing is non-powered. 53" and 67" high stations include a shelf and task light.

Pod pricing is per station. Pods are powered down the spine with one power receptacle per station.

Sonoma

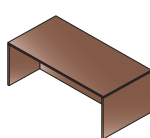

The most extensive Vintage Collection offering, Sonoma, complements contemporary environments with soft radius edges, compound-curved corners and several curved components, such as p-tops, half-cylinder table bases, round and racetrack tables. All conference tables feature 2" thick tops. Work surfaces and end panels are 1 1/8" thick. Edges and corners are solid hardwood carefully crafted to match select hardwood veneers, presented in Dark Cherry stain. High-sheen finishes from multiple-step processes provide executive appearance and lasting durability.

Kenwood

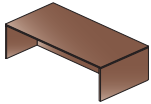

Kenwood presents the finest wood characteristics with carefully selected A grade North American Cherry veneers. Each is book-matched and assembled in traditional fashion to develop the natural grain character and the refined finish consistency. Complementing this careful craftsmanship is a warm Light Cherry or rich Mahogany stain. Durable finishes feature a more subtle sheen created through multiple-step processes to achieve a unique level of sophistication.

Mendocino

Design for the connoisseur, Mendocino brings together executive style, characteristics and function. Complex shape work surface edges coordinate with decorative pedestal molding and hutch tops. Enhanced features include legal-width desk pedestals, austere 80" heights (credenza/hutch), and a dramatic showcase hutch with beveled wood frame/clear glass doors.

Select hardwood veneers feature contemporary Maple or deep rich Mahogany finish. Ultimate high-sheen marks the pinnacle of excellence achieved in the Mendocino design.
